REASONS FOR ALLOWANCE

Claims 13 and 15-23 are allowed.

The following is an examiner's statement of reasons for allowance:

The Examiner accepts Applicant's arguments that claim 13, as amended, overcomes the McClendon et al. reference. The prior art does not teach method combination recited, and in particular the step of determining the optimum common clock speed based on the module thermal states, self-test clock speeds, power state, and cooling system repair status.

Newly independent claims 15-18 and 23 are allowable based on the respective limitations of the original dependent claims that were previously indicated as allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
